Chengshuai Zhao

Ph.D. Student in Computer Science · Arizona State University · Tempe, AZ, USA

+1 (949) 227-7633 | czhao93@asu.edu | chengshuaizhao0.github.io | LinkedIn

Education

Arizona State University — Jan 2024 – May 2028 (expected)
Ph.D. in Computer Science, Advisor: Huan Liu — *Tempe, AZ, USA*

University of California, Irvine — Sep 2022 – Jun 2023
B.S. in Data Science — *Irvine, CA, USA*

Huazhong Agricultural University — Sep 2018 – Jun 2023
B.S. in Data Science · B.S. in Life Science — *Wuhan, China*

Research Experience

Data Mining and Machine Learning Lab (DMML), Arizona State University — Jan 2024 – Present
Graduate Research Assistant, advised by Prof. Huan Liu — *Tempe, AZ, USA*

- **LLM post-training & reasoning:** reasoning distillation via explanatory data synthesis and RL with structured rewards [4]; an RL-optimized knowledge graph retriever for reasoning-augmented generation [12]; a controlled and synthetic environment for pre-training LLMs from scratch and probing reasoning [7].
- **LLM/MLLM system security, privacy & safety:** bilevel-optimized knowledge-poisoning attacks on RAG systems [19] and covert malicious-agent injection into MLLM societies [18]; adversarial data synthesis that protects data from unauthorized fine-tuning of LLMs [30] and VLMs [31]; RL-driven defenses that shield proprietary LLMs from unauthorized API-based knowledge distillation [32].
- **RAG & LLM agent applications:** knowledge-graph-grounded response verification in RAG for domain-specific question answering [13], [14]; a multi-agent RL framework in Graph-RAG for multi-hop reasoning [12]; LLM multi-agent frameworks with human-in-the-loop collaboration for large-scale content analysis [15], [16].
- **LLM evaluation:** LLM-as-a-judge [10] and the detectability of LLM-generated judgments [11]; detection and evaluation of LLM-generated content [17], [33]; evaluation of CoT reasoning under distribution shift [7].
- **Causality, interpretability, efficiency & recommendation:** causality-guided representation learning for robust generalization across domains, styles, and modalities [3], [8], [28]; concept bottleneck models for interpretable and trustworthy open-ended grading [9], [1]; low-rank node-level graph diffusion for few-shot node classification [6]; diffusion language models for diverse and efficient bundle recommendation [27].

Center for AI Research and Innovation (CAIRI), Westlake University — Jul 2022 – Sep 2022
Research Intern, advised by Prof. Stan Z. Li — *Hangzhou, China*

- **Molecular foundation models:** self-supervised pre-training of GNNs for molecules with a context-aware atom-level tokenizer and masked atom modeling with contrastive learning [20].

BioMedical Big Data Mining Lab (BBDM), Huazhong Agricultural University — Oct 2019 – Sep 2022
Undergraduate Researcher, advised by Prof. Wen Zhang — *Wuhan, China*

- **Graph representation learning & link prediction:** contrastive self-supervised GNNs, equivariant positional-encoding GNNs, and graph-embedding ensembles for predicting molecular interactions [21], [23], [24].

Honors & Awards

Awards

- **GPSA JumpStart Research Grant**, Arizona State University — Oct 2026
- **SIAM Student Travel Award**, SDM 2026 — Sep 2026
- **Gold Reviewer Award**, ICML 2026 — May 2026
- **SCAI Conference Award**, Arizona State University — May 2026
- **Best Paper Award**, ACM CIKM 2025, Demo Papers Track — Nov 2025
- **Best Student Paper Award**, IEEE CogMI 2024 — Oct 2024
- **Innovation and Entrepreneurship Award**, Huazhong Agricultural University — Nov 2021

Scholarships

- **Outstanding Study Scholarship** (top 0.1%) — Jul 2021, Jul 2022
- **Advanced Study Scholarship** (top 3%) — Apr 2019, Jul 2019, Jul 2020
- **Excellent Study Scholarship** (top 10%) — Nov 2020, Nov 2021, Nov 2022
- **Merit Student Scholarship** (top 20%) — Nov 2020

Invited Talks

- *Invited Talk*, NICE AI Talk, Virtual — Dec 2025
- *Invited Talk*, CCSB Biweekly Seminar Series, Prairie View A&M University, Virtual — Sep 2025
- *Guest Lecture*, CSE 472: Social Media Mining, Arizona State University, Tempe, AZ — Aug 2025
- *Invited Talk*, Yochan Lab, Arizona State University, Tempe, AZ — Aug 2025

Media Coverage

- *The New Yorker*: What if A.I. Doesn't Get Much Better Than This? — Aug 2025
- *Ars Technica*: LLMs' "Simulated Reasoning" Abilities Are a "Brittle Mirage," Researchers Find — Aug 2025
- *VentureBeat*: LLMs Generate 'Fluent Nonsense' When Reasoning Outside Their Training Zone — Aug 2025
- *SF Examiner*: New Study Calls AI Reasoning a 'Brittle Mirage' — Aug 2025
- *The Decoder*: Yet Another Study Doubts That LLM Reasoning Shows True Logic over Pattern Imitation — Aug 2025

Professional Service

Memberships

- IEEE · ACM · AAAI · SIAM · AAAS

Program Committee Member / Reviewer

- **Data Mining & Information Retrieval**: SIGKDD, WWW, SIGIR, WSDM, CIKM, ICDM. — 2024–2026
- **Machine Learning & AI**: ICML, NeurIPS, ICLR, AAAI, IJCAI. — 2025–2026
- **Natural Language Processing**: ACL, EMNLP, NAACL, EACL. — 2024–2025

Workshop Organization

- *Organizer & Speaker*, Workshop on Cybersecurity, AI, and Education, NSF SFS PI Meeting — Feb 2026

Technical Skills

- **Research Skills**: LLM post-training (SFT, RL, knowledge distillation), LLM reasoning, LLM/MLLM system security, privacy & safety, LLM agents, RAG, LLM evaluation, explainable AI & model interpretability, graph representation learning (link prediction, node classification, graph generation), causal representation learning
- **Programming Languages**: C, C++, Java, Python, R, Go, Scala, SQL, Verilog HDL
- **Frameworks**: PyTorch, HF Transformers, DeepSpeed, vLLM, TensorFlow, Scikit-learn, Hadoop, Spark
- **Databases**: Oracle, MySQL, SQLite, MongoDB
- **Tools**: Git, Docker, Conda, Overleaf
- **Operating Systems**: Ubuntu, CentOS, macOS, MS Windows
